

Dermatology capabilities in practice (CiPs) – mapping to 2010 curriculum competencies

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
<p>1. Outpatient dermatology: managing dermatology patients in the outpatient setting</p>	<p>Knowledge of core medical dermatology presentations-pruritus, eczema, viral warts, common bacterial and fungal infections, psoriasis, immunobullous disease, acne and rosacea, cutaneous lupus, connective tissue disease, urticaria/angioedema, vasculitis, leg ulcers, cutaneous lymphoma, systemic disease presenting in the skin, drug reactions, emergency presentations (appears after section B on eportfolio)</p> <p>Section A (i)1 History taking Section A (i)2 Clinical examination Section A (i)3 Time management and decision making Section A (i)4 Decision making and clinical reasoning Section A (i)5 The patient as central focus of care Section A (i)6 Prioritisation of patient safety in Clinical Practice Section A (i)7 Team working and patient safety Section A (i)8 Principles of Quality and safety improvement Section A (i)9 Infection control Section A (i)10 Relationships with patients and communication within a consultation Section A (i)11 Complaints and medical error Section A (i)12 Communication with colleagues and co-operation Section A (i)13 Health Promotion and Public health Section A (i)14 Legal framework for practice Section A (i)15 Personal behaviour</p> <p>Section A (ii)1 Basic science of the skin To be able to describe the structure and function of normal skin To be able to explain the pathophysiological consequences of skin diseases and the mechanisms by which treatment may be effective</p> <p>Section A(ii) 2 Medical dermatology</p>

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
	<p>To be able to carry out specialist assessment, investigation and management of a patient presenting with skin disease, or with a skin manifestation of an internal or systemic disease</p> <p>Section A(ii) 3 Management of chronic disease dermatology To be able to work with patients and use their expertise to manage their condition collaboratively and in partnership, with mutual benefit</p> <p>Section A(ii) 3a Dermatological pharmacology and therapeutics To be able to safely prescribe and monitor systemic therapy for skin disease, including the use of systemic immunomodulatory and biologic agents To be able to appropriately prescribe topical therapy</p> <p>Section A(ii) 4 Infectious diseases and infestations of the skin To be able to diagnose and manage viral, bacterial, fungal and parasitic infections of the skin</p> <p>Section A (ii) 6 Dermatopathology To be able to recognise the microscopic features of diseases of the skin To be able to correctly interpret a written dermatopathology report and to offer discussion and differential diagnosis of the described distinguishing histological features To be able to choose a range of laboratory techniques to optimise diagnostic accuracy To combine clinical assessment with pathological correlation to accurately diagnose skin disease</p> <p>Section A (ii) 10 Dressings and wound care To be able to diagnose and manage ulceration of the skin and post surgical skin wounds</p> <p>Section B 10 Leadership</p>
<p>2. Acute and emergency dermatology: managing dermatological emergencies in all environments and managing</p>	<p>Knowledge of core medical dermatology presentations-pruritus, eczema, viral warts, common bacterial and fungal infections,</p>

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
<p>an acute dermatology service including on-call</p>	<p>psoriasis, immunobullous disease, acne and rosacea, cutaneous lupus, connective tissue disease, urticaria/angioedema, vasculitis, leg ulcers, cutaneous lymphoma, systemic disease presenting in the skin, drug reactions, emergency presentations (appears after section B on eportfolio)</p> <p>Section A (i)1 History taking Section A (i)2 Clinical examination Section A (i)3 Time management and decision making Section A (i)4 Decision making and clinical reasoning Section A (i)5 The patient as central focus of care Section A (i)6 Prioritisation of patient safety in Clinical Practice Section A (i)7 Team working and patient safety Section A (i)8 Principles of Quality and safety improvement Section A (i)9 Infection control Section A (i)10 Relationships with patients and communication within a consultation Section A (i)11 Complaints and medical error Section A (i)12 Communication with colleagues and co-operation Section A (i)13 Health Promotion and Public health Section A (i)14 Legal framework for practice Section A (i)15 Personal behaviour</p> <p>Section A(ii) 2 Medical dermatology To be able to carry out specialist assessment, investigation and management of a patient presenting with skin disease, or with a skin manifestation of an internal or systemic disease</p> <p>Also sections A(ii) 3a, 4, 6, 10 relevant to this capability, which are described for CiP 1 and not repeated here.</p> <p>Section B 10 Leadership</p>
<p>3. Liaison and community dermatology: working in partnership with primary care and promoting skin health</p>	<p>Section A (i)3 Time management and decision making Section A (i)4 Decision making and clinical reasoning Section A (i)5 The patient as central focus of care Section A (i)6 Prioritisation of patient safety in Clinical Practice</p>

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
	<p>Section A (i)7 Team working and patient safety</p> <p>Section A (i)8 Principles of Quality and safety improvement</p> <p>Section A (i)10 Relationships with patients and communication within a consultation</p> <p>Section A (i)11 Complaints and medical error</p> <p>Section A (i)12 Communication with colleagues and co-operation</p> <p>Section A (i)13 Health Promotion and Public health</p> <p>Section A (i)14 Legal framework for practice</p> <p>Section A (i)15 Personal behaviour</p> <p>Section A(ii) 3a Dermatological pharmacology and therapeutics To be able to safely prescribe and monitor systemic therapy for skin disease, including the use of systemic immunomodulatory and biologic agents To be able to appropriately prescribe topical therapy</p> <p>Section A(ii) 5 Psychocutaneous medicine To be able to diagnose serious or incidental psychiatric morbidity in patients presenting with or being followed up for skin disease To be able to diagnose serious or incidental psychiatric morbidity in patients presenting with or being followed up for skin disease</p> <p>Section B 8 Dermatology & Primary Health care To be able to communicate appropriately with Primary Health Care Physicians for the benefit of both patient and General Practitioner</p> <p>Section B 10 Leadership</p>
<p>4.</p> <p>4. Skin tumours and skin cancer: managing a comprehensive skin cancer and benign skin lesion service</p>	<p>Section A (i)1 History taking</p> <p>Section A (i)2 Clinical examination</p> <p>Section A (i)3 Time management and decision making</p> <p>Section A (i)4 Decision making and clinical reasoning</p> <p>Section A (i)5 The patient as central focus of care</p> <p>Section A (i)6 Prioritisation of patient safety in Clinical Practice</p> <p>Section A (i)7 Team working and patient safety</p> <p>Section A (i)8 Principles of Quality and safety improvement</p>

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
	<p>Section A (i)10 Relationships with patients and communication within a consultation</p> <p>Section A (i)12 Communication with colleagues and co-operation</p> <p>Section A (i)13 Health Promotion and Public health</p> <p>Section A (i)14 Legal framework for practice</p> <p>Section A (i)15 Personal behaviour</p> <p>Section A (ii) 8 Skin oncology, radiotherapy and skin cancer To have the knowledge, skills, experience and confidence to diagnose and to stage all primary malignant disease of the skin To be able to surgically treat T1 BCC's, T1 SCC's, and T1a/b melanomas</p> <p>Section A (ii) 9 Breaking bad news To recognise the fundamental importance of breaking bad news</p> <p>Section B 10 Leadership</p>
<p>5. Procedural dermatology: performing skin surgery and other dermatological procedures</p>	<p>Section A (i)3 Time management and decision making</p> <p>Section A (i)4 Decision making and clinical reasoning</p> <p>Section A (i)5 The patient as central focus of care</p> <p>Section A (i)6 Prioritisation of patient safety in Clinical Practice</p> <p>Section A (i)7 Team working and patient safety</p> <p>Section A (i)8 Principles of Quality and safety improvement</p> <p>Section A (i)9 Infection control</p> <p>Section A (i)10 Relationships with patients and communication within a consultation</p> <p>Section A (i)11 Complaints and medical error</p> <p>Section A (i)12 Communication with colleagues and co-operation</p> <p>Section A (i)13 Health Promotion and Public health</p> <p>Section A (i)14 Legal framework for practice</p> <p>Section A (i)15 Personal behaviour</p> <p>Section A (ii) 7 Dermatological surgery To be able to surgically treat benign and malignant skin disease safely and effectively</p> <p>Section A (ii) 7a Valid consent</p>

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
	<p>To understand the necessity of obtaining valid consent from the patient and how to obtain it</p> <p>Section A (ii) 10 Dressings and wound care To be able to diagnose and manage ulceration of the skin and post surgical skin wounds</p> <p>Section B 4 Cutaneous laser surgery To be able to refer patients appropriately for laser surgery</p> <p>Section B 5 Cosmetic dermatology To be able to advise patients considering cosmetic treatment To be able to diagnose and manage patients with complications of cosmetic therapy</p> <p>Section B 10 Leadership</p>
<p>6. Paediatric dermatology: managing paediatric dermatology patients in all settings</p>	<p>Section A (i)1 History taking Section A (i)2 Clinical examination Section A (i)3 Time management and decision making Section A (i)4 Decision making and clinical reasoning Section A (i)5 The patient as central focus of care Section A (i)6 Prioritisation of patient safety in Clinical Practice Section A (i)7 Team working and patient safety Section A (i)8 Principles of Quality and safety improvement Section A (i)10 Relationships with patients and communication within a consultation Section A (i)11 Complaints and medical error Section A (i)12 Communication with colleagues and co-operation Section A (i)13 Health Promotion and Public health Section A (i)14 Legal framework for practice Section A (i)15 Personal behaviour</p> <p>Section B 2 Paediatric dermatology To be able to investigate, diagnose and treat neonates, children and adolescents with skin disease</p> <p>Section B 3 Genetics To be able to diagnose and treat genetic skin disease and appreciate importance of genetic counselling</p>

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
	To be able to identify individuals at risk of inherited disease and at risk of having affected children
<p>7. Other specialist aspects of a comprehensive dermatological service including:</p> <p>7A) cutaneous allergy</p> <p>7B) photobiology and phototherapy</p> <p>7C) genital and mucosal disease</p> <p>7D) hair and nail disease</p>	<p>Section B 1a Cutaneous allergy, contact dermatitis and occupational dermatitis</p> <p>To be able to investigate, diagnose and manage patients with skin allergy, including presentations of contact dermatitis and contact urticaria</p> <p>To be able to investigate, diagnose and manage patients with common occupational dermatoses</p> <p>Section B 1b Preparation of medicolegal reports</p> <p>To be able to assess patients for medico legal claims and discuss writing appropriate reports</p> <p>Section B 1c Prick testing</p> <p>To be able to evaluate patients for contact urticaria and type I hypersensitivity and perform prick testing safely</p> <p>Section B 6a Photosensitivity and photodiagnosis</p> <p>To be able to diagnose and manage patients with a photosensitive disease</p> <p>To be able to appropriately refer patients for monochromator light testing and photoprovocation testing</p> <p>Section B 6b Phototherapy and photochemotherapy</p> <p>To be able to select appropriate patients for phototherapy and photochemotherapy</p> <p>To be able to deliver and supervise phototherapy and photochemotherapy services</p> <p>Section B 6c Photodynamic therapy</p> <p>The trainee will be able to select appropriate patients and lesions for photodynamic therapy (PDT).</p> <p>The trainee will be able to deliver and supervise a basic PDT service for patients with low risk lesions/conditions, and to refer patients appropriately to specialist PDT services.</p> <p>Section B 7a GUM</p> <p>To be able to detect sexually transmitted infection (STI) in patients presenting to dermatology, and refer appropriately to a Genitourinary Clinic</p>

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
	<p>Section B 7b Vulval dermatology To be able to competently diagnose and manage common vulval disorders in patients presenting to dermatology</p> <p>Section B 7c Male genital disease To be able to diagnose and manage common penile disorders in patients presenting to dermatology</p> <p>Section B 7d Oral Medicine To be able to diagnose and manage oral disorders and oral manifestations of systemic disease in patients presenting to dermatology</p>
