

# 2022/23 INTERNATIONAL AND UK REGIONS SURVEY RESULTS

INTERNAL MEDICINE (STAGE 1)  
GENERIC SURVEY QUESTIONS

JUNE 2023

Warren Lynch  
Trainee Services Manager  
Joint Royal Colleges of Physicians Training Board

## Introduction

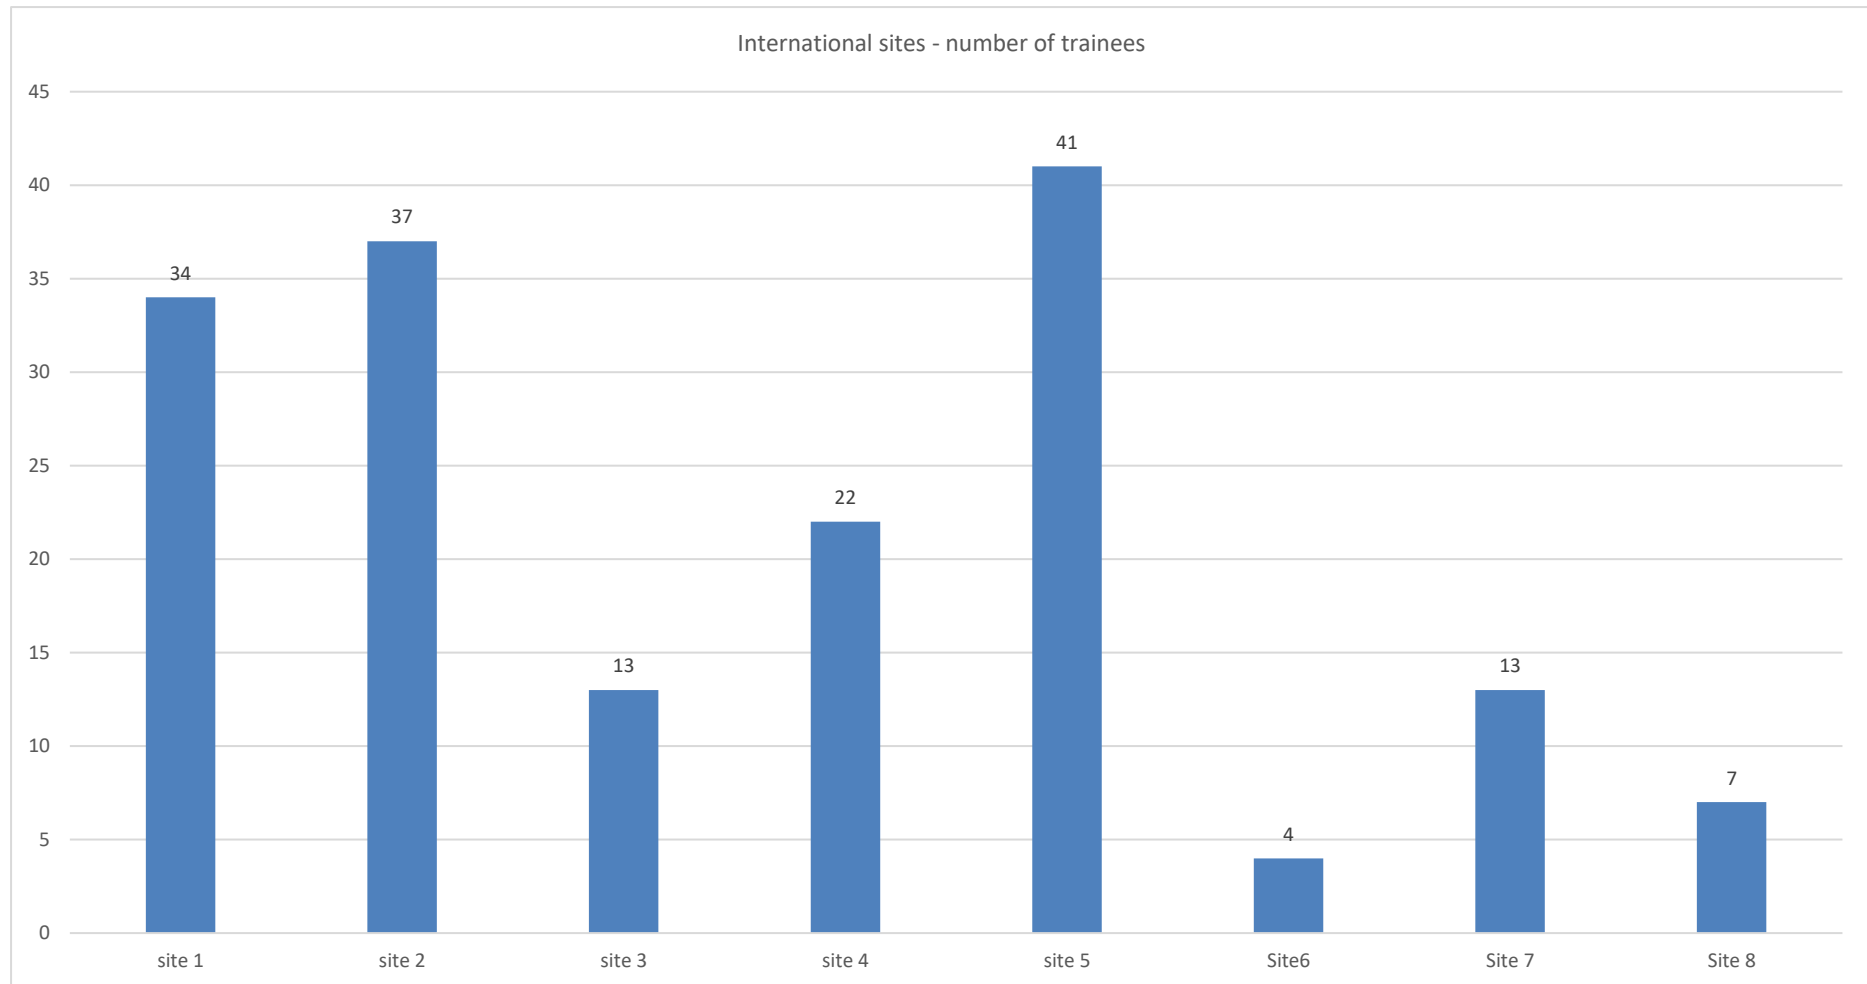

The National Trainee Survey is an annual survey in the United Kingdom. The purpose of the survey is to gather feedback from trainees to help local education providers such as hospitals and general practices improve their training practice. It also helps postgraduate deaneries/local education and training boards (LETBs) manage training programmes, which are usually delivered across a number of different local education providers (LEPs).

The trainee survey is comprised of a set of questions which test trainees' perceptions of training providers' compliance with the GMC standards. It is a unique opportunity for managers of training programmes to hear the views of their trainees.

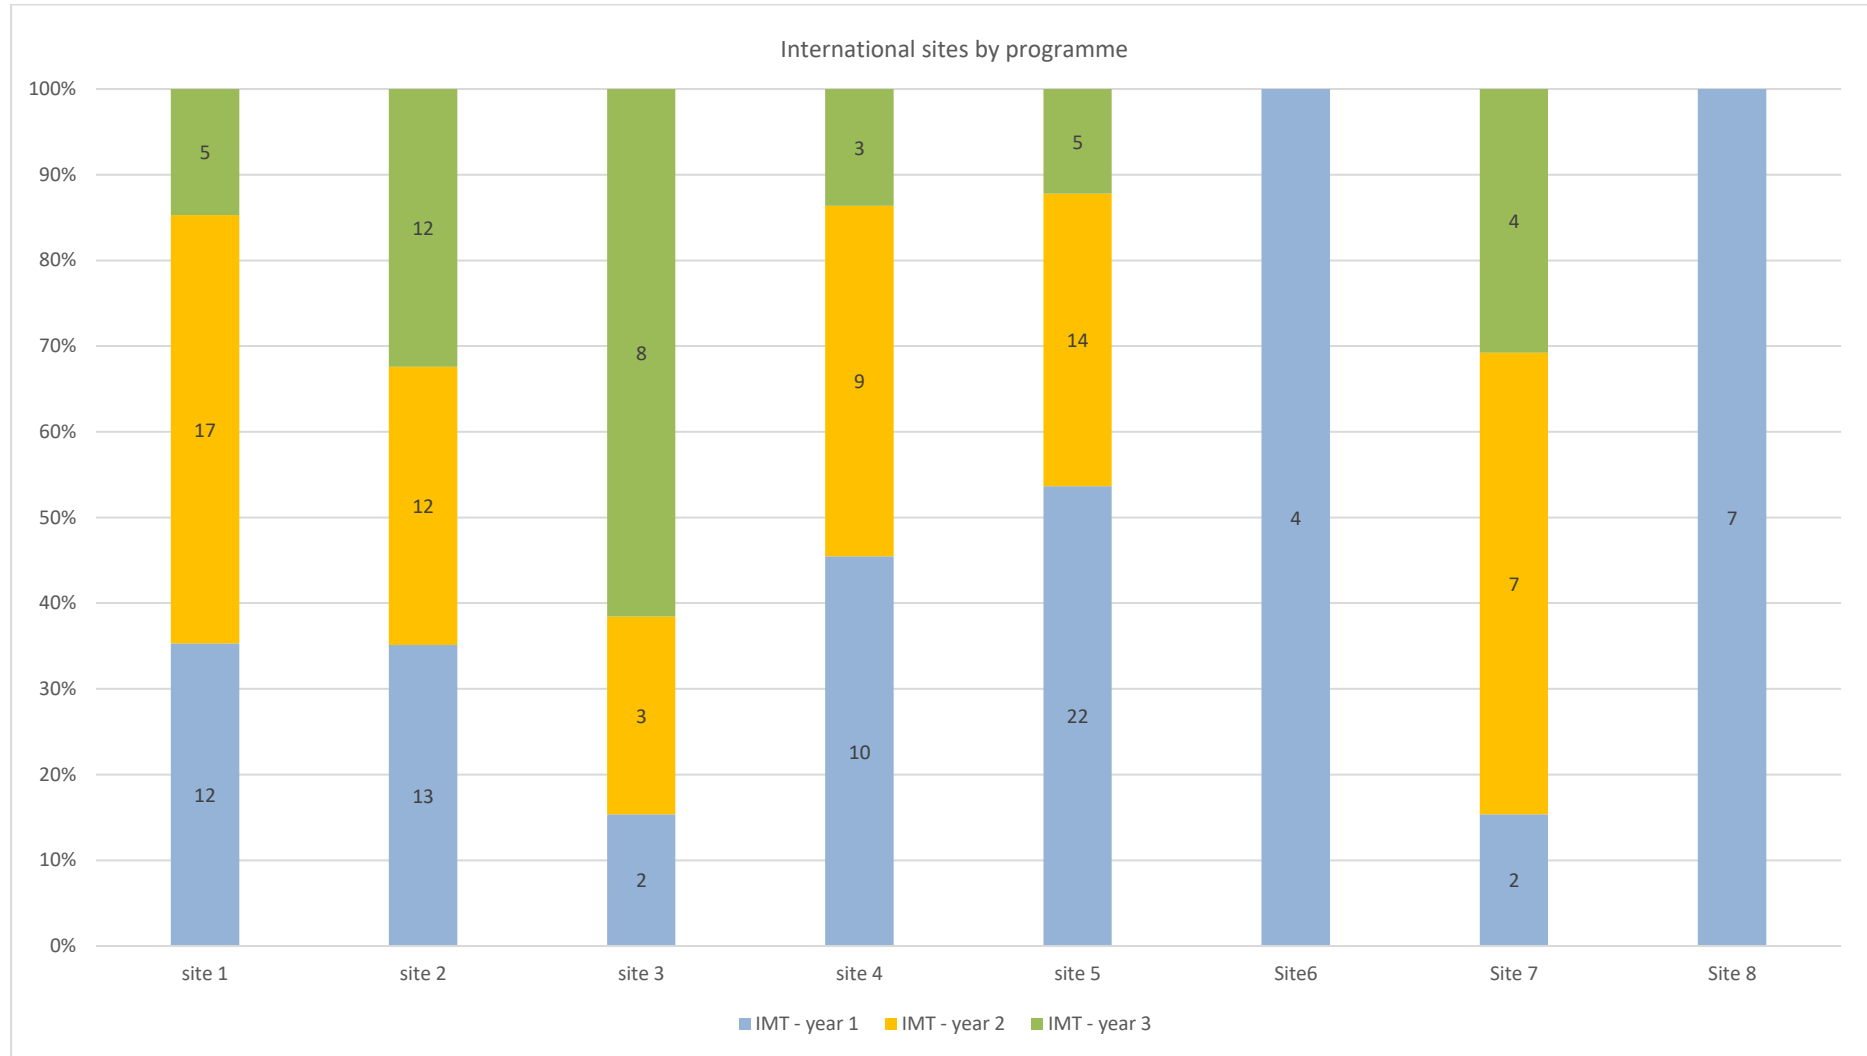

Trainees in international centres have been asked to answer 16 questions from the National Trainee Survey with the responses compared to regional results in the United Kingdom. Results are shown below:

## APPENDIX A: - Responses by region
